

Clark Forklift Parts

Clark Forklift Parts - At this time, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Supplier is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark has a unrelenting goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the particularly economical and advantageous system of "Lean Production" for its assembly facilities and use of resources. This system was established to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and excellence of their products while minimizing expenses. The new value engineering program combines innovative product development and provides improved consumer support and service within the industry.
